

What is the Diploma Supplement?

What is the Diploma Supplement ?

The Diploma Supplement is an important document designed to facilitate understanding and recognition of qualifications across the European Higher Education Area. It provides a detailed description of the contents of the educational study programme and indicates the skills and competences required to complete the course. The Diploma Supplement is intended to be used as a complement to the graduate's degree qualification but does not in any way replace the original official degree certificate. For more information regarding the Diploma Supplement and its benefits please check the European Commission website : https://ec.europa.eu/education/diploma-supplement_en

The ISEN YNCREA OUEST Diploma Supplement has been produced in line with the standards established by the European Commission, the Council of Europe and the United Nations Educational, Scientific and Cultural Organization (UNESCO). It contains eight sections providing information regarding:

- the holder of the qualification
- the qualification type and ISEN Yncréa Ouest as an institution
- the level of the ISEN Yncréa Ouest Master's degree
- the content of the course and results gained
- function of the qualification
- certification of the diploma supplement
- details of the French national higher education system
- other relevant details

All ISEN Yncréa Ouest graduates are entitled to receive their Diploma Supplement free of charge. The current version exists only in French, but an English version is in the process of being prepared.

If you have graduated from ISEN Yncréa Ouest and wish to obtain your Diploma Supplement in French or in English, please contact the Director of Studies, Jean-Yves MULOT at : jean-yves.mulot@isen-ouest.yncrea.fr
